Profile

Computer Science graduate focused on real-time graphics, 3D web experiences, and systems development. Strong in C++, OpenGL, Three.js, and Linux environments with hands-on experience in GPU optimization and game development.

Experience

3D Web Developer — EBR Agency (2024): Built optimized WebGL experiences using Three.js, instancing, texture atlases, and draw-call reduction.

Game Developer — Personal & Campus Projects: Developed 2D/3D mechanics, AI systems, physics interactions, Blender assets, and C# gameplay scripts.

3D Modelling & Animation — Terractive | EBR Agency: Created detailed 3D models and production-ready animation workflows.

Linux Systems Engineer — Personal Environment: Managed Arch Linux, Ubuntu, Void, and Pop!_OS systems with structured system configuration and management.

RPA Developer — FeatSystems (2024): Developed production-grade UiPath bots with logging, retries, and environment configuration.

Projects

Sinister Passage — 3D horror survival game (Unity, C#)

2D Pixel Fighting Game — Python, Pygame

CyberEtro — 3D cyber-retro themed website (Blender, Spline, Framer)

Marine Wildlife Education Platform — Interactive 3D learning website

Retro Music Player Website — HTML, CSS, JavaScript

Education

Bachelor's in Computer Science — Mumbai University (2025) | Focus: Mathematics, Computer Graphics, Systems, DBMS, Algorithms

Introduction to Big Data — Swayam NPTEL (6 Months)

Introduction to Database Management Systems — Swayam NPTEL (6 Months)

Linux Systems & Environment Engineering — Independent (Active)

C/C++ Developer Journey — Independent (Self-paced)

Certifications

Oracle Vector Search Professional — Oracle University (2025)

C++20 Masterclass (2024)

Computer Graphics with Modern OpenGL (2024)

UiPath RPA Certification (2024)

NPTEL Big Data (2023)

NPTEL DBMS (2023)
